

PENETRATING COIL CLEANER

PRODUCT NUMBER: 5390

This product is formulated to penetrate and remove dirt and matted material from condenser coils and fins, eliminating the need for high pressure sprayers and bulky tank sprayers. Upon contact with the surface of the coil, the foaming action of the product begins to remove the soil from the surface. Rinsing is not required. Dirt and lint are washed away with condensation, leaving unit cleaned and deodorized.

APPLICATIONS

An excellent product for air conditioners, central cooling systems, auto air conditioners, refrigeration and freezers. For use in hotels/motels, homes, office buildings, air conditioner services and auto and RV repair services.
