

ADVANCE 6030BP

Botanical Machining and Grinding Coolant

The Metalloid Partnership Advantage

Product Line Information:

Metalloid Corporation manufactures a complete line of high-quality botanical fluids for a wide range of applications. Metalloid drawing compounds provide industry with a variety of unique products, which meet the demands of most drawing and forming operations.

Product Description:

ADVANCE 6030BP is a low foaming, high performance, botanical metalworking fluid for machining and grinding of ferrous and non-ferrous metals. **ADVANCE 6030BP** has a unique blend of botanical additives and boundary lubricants that provide proven performance on difficult machining and grinding operations. **ADVANCE 6030BP** is formulated to provide exceptional rust protection. **ADVANCE 6030BP** is the ideal choice for replacing traditional petroleum-based coolants used to machine aluminum, especially small hole tapping of aluminum. **ADVANCE 6030BP** does not contain petroleum oil, chlorine, or sulfur.

Benefits:

- ✓ Exceptional rust protection
- ✓ Contains no nitrites or phenols
- ✓ Does not leave tacky residue on machine or fixtures
- ✓ Forms stable micro-emulsion
- ✓ Virtually non-foaming
- ✓ Excellent rancidity control

Specifications:

Appearance	Bright, clear amber liquid
Specific Gravity @70 ^o F.....	1.03
Density, lbs. /gal. @ 70 ^o F.....	8.6
pH @ 1:10.....	9.2

Approvals:

Boeing BAC 5008 for usage areas 5 and 6
USDA Bio-Preferred High Performance Metalworking Fluid

Packaging:

ADVANCE 6030BP is available in 5-gallon pails, 55-gallon drums or 330-gallon totes.
